DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/12/2007 has been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The outstanding rejection under section 103 over Tatemoto is withdrawn.

Tatemoto is the closest prior art but fails to teach or suggest using ethyl acetate and tetrahydrofuran as the claimed solvents, see column 4 of Tatemoto teaching fluorinated solvents, and solvents with boiling points over 200°C (b.p. of tetrahydrofuran 66°C and ethyl acetate 77.1°C). In this regard, Tatemoto actually teaches away from the instant process requiring tetrahydrofuran and ethyl acetate. An updated search of the prior art failed to uncover a reference that teaches the instant process, or a reference that would have motivated those of ordinary skill to modify a known process to include requiring tetrahydrofuran and ethyl acetate (see US 6,274,677 at column 4, lines 41-48, also teaching fluorinated solvents, and solvents with boiling points over 200°C).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
